I might as well add my comments to this so they are all in the same place.

Ok, not bad, hard to judge the efficacy of the presentation by the slides alone, as I imagine there will also be 'the talking' to explain what each slide is – if that talking is clear and concise talking, it might be fine; if it is excessively detailed and wandering, then not so much. So some coaching might be in order.

Please keep working with the team on this, send me what you have COB tomorrow, we should probably give Tim Watkins a heads up on Thursday.

Andy,

This is what Andy Lindstrom has as of end of the day today. It is still a ways away from being ready for prime time. I/we will keep hammering.

Tim,

Here is what I've got right now.

We need John to add more on the soils toward the end.

Please change it as you see fit. Other folks can add more too please.

Thank you,

Andy

Andy,

I would organize:

1. Title
2. Background Context (2-3 slides)
3. Research Questions (1 slide)
4. Methods (2-3 slides)
5. Preliminary Results (2-3 slides)
6. Summary
7. Next Steps

A couple of thoughts for your consideration on slide content:

All,

Tim has asked us to prepare a briefing on the results so far for New Jersey DEP program. It may actually be two briefings, one for R2 senior folks and another for ORD - I'm not sure.

If you could please send me any slides or data summaries you may have from any of our previous NJ DEP presentations I'll put together a basic outline for this talk.

I think we're mainly looking for the water data for the legacy materials with some evaluation of the percent branching for PFNA.

I've attached a draft of a draft above. Please send me what you can.

Thank you very much,

Andy

Andy,

We talked a while ago about the need to pull together a high-level briefing on what we are finding in NJ. As you know, Nidal has schedule a briefing for R2 senior management for 9/25. Jennifer OZ is also asking for a briefing to her and Program Offices (as yet unscheduled). It was my understanding that you were going to pull a draft together. Can you let me know where you are with this?

Thanks.
